

Morning sessions for families, afternoon for scientists and would-be scientists young and old.

You will hear about:

- the latest fossil discoveries
- the colourfully feathered velociraptor
- how the dinosaur world evolved
- where the dinosaurs lived
- the Jurassic swamps and Triassic forests
- dinosaurs in the ocean
- what finally wiped out the dinosaurs?
- are the dinosaur descendants still living?
- evolution and mass extinction.

KEYNOTE SPEAKERS

Professor John Long – Flinders University, will give an overview on the origin of the species, including dinosaurs.

Dr Steve Salisbury – University of Queensland Dinosaur Lab, will talk about the recent discovery of dinosaur tracks in northwest Western Australia.

Dr Stephen Poropat – Swinburne University of Technology will talk about Australian dinosaurs through the Mesozoic period and the Triassic fossils found in the Hobart area – are they dinosaurs?

Dr Phil Bell – University of New England, will talk on recent opalized dinosaur discoveries from Lightning Ridge, NSW.

Professor Ross Large – University of Tasmania, will talk about his research on ocean chemistry, evolution and mass extinctions over the last 600 million years.

Peter Norton – Gondwana Studios, is the creator of the Dinosaur rEvolution exhibition at TMAG. He will talk about bringing dinosaurs to life by exhibition.

John Pickell – a well-known author who has published several books on dinosaurs will run a Q & A session on dinosaurs, fielding questions from the audience.

Book Your Ticket Early – don't miss out

BOOKINGS

Please book your ticket for this event on-line at rst.org.au

Tickets for morning session (either 23rd or 24th):

\$10 Children (3-15 years), \$20 Adults

Two day ticket : \$20 Children, \$100 Adult

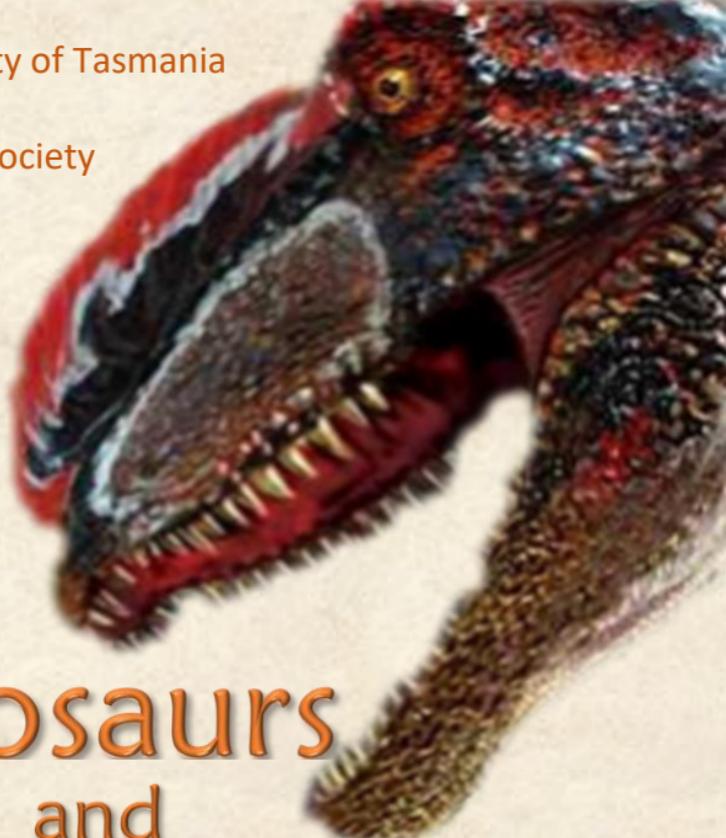

Note- the Royal Society of Tasmania is sponsoring two dinosaur events; this event in March, and the Dinosaur Exhibition at TMAG from December 2018 to May 2019.

We encourage you to go to both events to learn all the latest about dinosaurs. You will then become a dinosaur expert when you can claim the...

"RST Dinosaur Expert" Certificate

The Royal Society of Tasmania
and
the Geological Society
of Australia
bring you –

Dinosaurs and Evolution of Life

an exciting event
for all ages

23–24 March 2019

Stanley Burbury Theatre
University Centre, Sandy Bay Campus, Hobart
